

*Diary*

*Dear diary:*

---

*Time travelling has changed my life. I had never envisioned how life changing it could be. I had the chance to visit all kinds of historic places and experience the evolution of technology, from the building of the pyramids to the creation of the first computer.*

*I could witness the lowest and  
the highest of human kind.  
Travelling to the Holocaust,  
being exposed to the true horror  
of a shameful time for  
humanity, transformed me in  
ways I cannot even  
explain.*

*But time travelling also allowed me to be ~~asffg~~ part of extraordinary moments of history: participating in Gandhi's "Salt March" or listening to Martin Luther King's "I have a dream" speech at Lincoln Memorial made me believe that good can prevail over evil.*

*Although I could use this  
device to visit the future, I  
have chosen not to do it  
I believe technology will  
evolve in such ways I would  
be amazed, but anticipation  
isn't killing me, it is feeding  
my imagination...*
